

Future Leaders of Manufacturing Scholarship

for
SME Student Chapter Members

CRITERIA

The SME Education Foundation is seeking nominations for the ***Future Leaders of Manufacturing Scholarship***. As an SME student chapter faculty advisor, here is a way for you to encourage a promising SME student member. Scholarships will be awarded to student chapter members nominated by their faculty advisors.

Criteria for Selection:

- Only **SME Student Chapter Faculty Advisors** may submit nominations for these scholarships
- Faculty advisors may **nominate only one** student from the chapter
- The student's **SME student membership** must be current
- The student must be **enrolled on a full time** (12 credit) basis during the academic year
- Undergraduate and graduate students are eligible
- Students may be in a manufacturing engineering, engineering technology, industrial technology, technical, or related engineering majors

A student can be nominated for a ***Future Leaders of Manufacturing Scholarship*** even if they have already applied for or have been a recipient of other SME Foundation scholarships.

Nomination Packet should include the following items:

1. Completed Nomination/Application Form
2. Letter of recommendation from the faculty advisor. (*Make your case as to why this student should be selected...address his/her participation in the student chapter, accomplishments, awards and honors, work experience, why the student chose a career in manufacturing and how the scholarship will help increase the student's leadership skills and career.*)
3. Student's resume
4. Copy of student's transcript

Nomination forms and materials must be submitted to the SME Foundation no later than **February 1st** to be considered.

Send application and all required documentation to:
